

REMARKS

In an interview on May 7, 2004, the Examiner indicated that Claim 5 is allowable. Consequently, in this supplemental Response to the Office Action of February 28, 2007, Applicants have amended independent Claim 1 to include the limitations of Claim 5 and all intervening claims. The other independent claims (i.e., Claims 6, 11 and 16) have been likewise amended.

By amending the claims, however, Applicants are not conceding in this Application that those claims are not patentable over the art cited by the Examiner, as the present claim amendments are only for facilitating expeditious prosecution of the allowable subject matter noted by the examiner. Applicants respectfully reserve the right to pursue these and other claims in one or more continuations and/or divisional patent applications.

Applicants believe that the Application is in allowance form and kindly request passage to issue of the pending claims.

Respectfully Submitted
